CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Rungta College of Pharmaceutical Sciences and Research, Bhilai. Affiliated by Chhattisgarh Swami Vivekanand Technical University, C.G., adheres to various crucial aspects to maintain high academic standards and provide quality education to its students. Rungta College of Pharmaceutical Sciences and Research, Bhilai adheres to the university's curriculum requirements. The College's Annual Academic Calendar is prepared in advance and coordinated with the Directorate of Higher Education, Government of Chhattisgarh. Based on the academic calendar of the university college arranges for the academic council meeting to discuss about the academic calendar, syllabus, timetable, teaching process and other activities that are to be scheduled during the session. The curriculum covers the necessary theoretical knowledge and practical skills relevant to the pharmacy courses. Faculty development programs are encouraged to enhance teaching methods and keep them updated with the latest advancements. The college adapts numerous policies for bridging the knowledge gap for weak students to enable them to cope with the programmed of their choices as well as promote, reward, and facilitate advanced learners. The college infrastructure and facilities are continuously being upgraded to suit the needs of changing curriculum and pedagogy. Rungta college maintain the disciplinary standards to create a conducive learning environment.

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained

The institution collects periodic feedback on curriculum, academics, administration and other issues like library, laboratory and canteen from all the stakeholders such as students, parents, teachers, alumni and employers using online Google forms. The IQAC is responsible for maintaining the quality, consistency and enhancement measure. A feedback to evaluate the quality of the facilities provided by the institution and the learning environment provided to the students are obtained annually from the outgoing students. The feedback responses are analyzed, and corrective and preventive actions are initiated to overcome any gaps indicated by the said feedback. The Parent Teacher Association conducts periodic Parent Teacher Meetings at departmental level and based on the suggestions received, action is taken for improvement in learning outcomes. Teachers also have telephonic conversations with parents about their ward's performances. The different areas where improvements are required are discussed with respective committees/departments. Strengths of the college are also taken into consideration for further up gradation. Notices are regularly put up on the college website for informing parents and students about the institutional activities. Regular teacher feedback is gathered from the students through online mode by the end of each course and is summarized by the respective department. Hardcopies of feedback are maintained by each department where the teachers participate in the discussion in the departmental meeting. Faculty members are appraised for their role in syllabus completion, based on feedback from students. Whenever feedback is not satisfactory concerned teacher is counselled by the HOD. Feedbacks are obtained from alumni towards their possible contribution for college enrichment, to support the students in employment and creating an awareness of expectations of the industry from fresh graduates. The obtained feedback is analysed and corrective actions are implemented subsequently. Alumni Feedback is conducted whenever alumni program such Alumni Meet are organized by the institute during academic year. This also helps in developing a close relationship with the alumni.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.1 – Student Enrolment and Profile

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The Students Mentoring System in the Pharmacy Institution is a valuable and supportive program designed to provide guidance, encouragement, and personalized assistance to pharmacy students throughout their academic journey. This system aims to foster a nurturing environment where experienced mentors, often faculty members or senior students, offer their expertise and insights to mentees, helping them navigate the challenges and opportunities of their pharmacy education. The mentoring system typically begins at the start of a student's academic year, where new students are paired with experienced mentors. The pairing process is often carefully considered, taking into account factors such as academic interests, career aspirations, and personality compatibility. This thoughtful matching ensures that mentees can form a meaningful and trusting relationship with their mentors. One of the primary goals of the mentoring system is to provide academic support. Mentors assist their mentees in understanding the curriculum, planning their study schedules, and excelling in their coursework. They can clarify doubts, share study tips, and recommend additional resources to enhance the learning experience. Beyond academics, the mentoring system also focuses on personal and professional development. Mentors act as role models and provide guidance on career options, internships, and research opportunities. They may share their own experiences, helping mentees gain practical insights into the pharmacy profession and make informed decisions about their future paths.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The CIE system is a progressive approach that assesses students academic progress and performance throughout the course, and these reforms aim to enhance its effectiveness and promote holistic learning among pharmacy students. The reforms have introduced a variety of assessment methods, including practical exams, group projects, presentations, case studies. This shift ensures that students learning outcomes are evaluated from different perspectives, allowing them to demonstrate a broader range of skills and knowledge. Furthermore, the reform initiatives focus on aligning the CIE system

with industry demands and real-world applications. This involves collaborating with pharmaceutical industries and practitioners to design assessments that mirror the challenges and scenarios students may encounter in their future careers. Such practical relevance not only prepares students for the workforce but also enhances their problem-solving abilities and professional adaptability. To ensure the successful implementation of these reforms, faculty development programs are conducted to train educators in designing and implementing effective assessments. This empowers the faculty with the necessary skills and knowledge to make the CIE system more meaningful and impactful.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The Academic Calendar for the Pharmacy Course is meticulously prepared by CSVTU, Bhilai and strictly adhered schedule that outlines the timeline and essential events related to the conduct of examinations and other pertinent academic matters throughout the academic year. Designed with precision and consideration, this calendar ensures a seamless and efficient learning experience for pharmacy students. At the beginning of each academic year, the calendar is circulated among the student. It encompasses the commencement and conclusion dates of each semester, breaks, holidays, online exam form submission, Schedule of theory and practical exam, and date of result declaration. The calendars primary focus is to create a structured and organized environment that promotes academic excellence and student success. The Academic Calendar features examination dates for sessional exams, practical assessments, and final exams, spread strategically across the semester to allow student sample time for preparation.

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

A comprehensive approach to maintaining and utilizing physical, academic, and support facilities involves a combination of preventive maintenance, efficient scheduling, adherence to safety standards, and effective communication. Regular reviews and updates to policies ensure that the facilities continue to meet the evolving needs of the academic community. 1. Maintenance Procedures: a. Regular Inspections: Conduct routine inspections of facilities to identify and address maintenance needs promptly. This includes checking for any damages, malfunctioning equipment, or safety hazards. b. Preventive Maintenance: Implement a preventive maintenance schedule for equipment and infrastructure to minimize breakdowns and prolong the lifespan of assets. c. Emergency Protocols: Develop and communicate emergency protocols for immediate response to issues such as power outages, water leaks, or structural concerns. 2. Academic Facilities (Classrooms, Laboratories): a. Booking System: Implement a centralized booking system for classrooms and laboratories to ensure efficient utilization. Prioritize academic use while allowing for flexibility. b. Equipment Management: Keep an inventory of academic equipment, ensuring regular calibration and replacement when necessary. Establish guidelines for proper usage and care. c. Safety Standards: Adhere to safety standards in laboratories. Provide safety training for staff and students, and maintain safety equipment such as fire extinguishers and emergency exits. 3. Library: a. Resource Management: Implement an efficient cataloging system for easy access to library resources. Regularly update and expand the collection based on academic needs. b. Digital Resources: Embrace digitalization by offering e-books, online journals, and databases. Ensure reliable access to these resources and provide training for users. 4. Sports Complex: a. Maintenance of Facilities: Regularly maintain sports facilities, including fields, courts, and equipment. Establish a schedule for periodic checks and repairs. b. Safety Guidelines: Enforce safety guidelines for sports activities. Provide first aid kits, ensure proper maintenance of sports equipment, and conduct safety briefings for users. 5. Computer Facilities: a. Access Controls: Control access to computer labs for authorized users. Implement user authentication systems

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

Rungta College of Pharmaceutical Sciences and Research ensures student representation on academic/non-academic and administrative bodies/committees as it is crucial for fostering a collaborative and inclusive learning environment. By giving students a voice in decision-making processes, institutions can better address their needs and concerns. The representation of students on such bodies helps bridge the gap between students and the administration, leading to more student-centric policies and initiatives. Student representatives play a pivotal role in promoting and encouraging cultural and sports activities within educational institutions. As elected or appointed representatives of the student body, they act as catalysts for fostering a vibrant campus life that embraces diversity, creativity, and physical well-being. Their active involvement in organizing and supporting cultural and sports events contributes significantly to the holistic development and overall well-being of students. Student representatives are included in the Academic Affairs Committee, which plays a significant role in curriculum development, course evaluation, and academic policies. Students provide valuable insights on improving teaching methodologies, assessment practices, and learning resources. The Student Welfare Committee includes student representatives who advocate for the well-being of their peers. This committee addresses non-academic issues such as accommodation, health services, and extracurricular activities. Student representatives participate in the Library Committee, contributing ideas on

enhancing library resources, services, and facilities. They collaborate with the administration to organize events, address grievances, and promote student engagement. They provide feedback on the relevance and effectiveness of the curriculum to ensure it meets current industry standards. Student representatives participate in committees that monitor and assess institutional quality and performance. They contribute to evaluations of teaching and learning experiences to drive continuous improvement. They advocate for improvements that contribute to a conducive learning environment. Student representatives take the lead in planning and organizing cultural festivals, arts exhibitions, sports tournaments, and other related events. They collaborate with student clubs, faculty, and staff to create engaging and inclusive programs that cater to diverse interests. By organizing multicultural events and sports activities, student representatives promote inclusivity and celebrate the diversity of the student body. They create platforms that encourage students from different backgrounds to participate and showcase their talents. Student representatives facilitate talent showcases, cultural performances, and sports competitions where students can demonstrate their skills and passions. These opportunities not only provide students with a chance to shine but also inspire others to explore their own talents. Student representation on academic and administrative bodies/committees empowers students to actively participate in shaping their educational experiences. It creates a sense of ownership and fosters a collaborative relationship between students and the institutions decision-makers. This representation plays a vital role in improving overall academic quality, student satisfaction, and the institutions commitment to student succes.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. BEST PRACTICE: 1 Title: Gode Gram Yojana Objectives of the Practice: To create awareness about pandemic situations among rural people. To learn brainstorm and organize their ideas. To promote health related treatment. Context: The majority of RCPSR students are going to rural areas to create awareness among the local population about health, hygiene, and environmental conservation. As a result, it was crucial to give them suggestions about health and hygiene, which are responsible for the majority of diseases. In ruler areas, there are insufficient healthcare facilities, which is a major concern. The practice: Students are getting a chance to showcase their skills, and it is also beneficial for the community. They are getting exposure to how they can counsel patients and understand the patient’s problems. After graduation, if they plan to choose clinical as their career, they will have a lot of plans for study design and a lot of history about how to solve health problems in an easy way or how to set up a health related campaign. Evidence of Success: The employability of students has improved. The number of students entering into entrepreneurship has also improved over the years. Our students have been visiting industries, hospitals, and clinical laboratories and understanding various aspects of the large-scale Pharmacy sector, like manufacturing, packaging, quality control, and regulatory guidelines. Problems Encountered and Resources Required: In this program, initially we were having problems explaining disease symptoms and health care tips. After a couple of visits, when the local community became comfortable, they automatically started asking us for health care advice. 2. BEST PRACTICE: 2 Title: Faculty Development Program Objectives of the Practice: To improve teaching methodologies To encourage the use of educational technology tools and software Context: Education is constantly evolving, and faculty members need to stay updated with the latest research, technology, and trends in their respective fields. Faculty

development programs help educators remain current and relevant in their areas of expertise. The practice: Continuous professional development is vital for any career. Faculty development programs provide opportunities for educators to grow professionally, both in their teaching capabilities and in their understanding of their disciplines. Evidence of Success: The effectiveness of a Faculty Development Program (FDP) can be assessed through various forms of evidence. Institutions often use a combination of qualitative and quantitative methods to evaluate the impact of their FDPs. Here are some common forms of evidence used to assess the success of an FDP: Feedback Surveys Pre- and Post-Assessments Classroom Observations Student Feedback Problems Encountered and Resources Required: FDPs can encounter various challenges, and their successful implementation requires careful planning and allocation of appropriate resources.

8.Future Plans of Actions for Next Academic Year

Developing an academic plan for the following five years is an important step toward reaching your educational and career objectives. To get you started, here's a general outline:

1. Self-Assessment and Goal Setting (Year 1): Examine your strengths, weaknesses, hobbies, and career goals. Set specific, attainable academic and professional goals over the following five years. Recognize the fields or subjects you want to specialize in or explore further.
2. Coursework and Major Selection (Year 1 - Year 2): Plan your coursework for the next few years based on your academic goals. Decide on a major or area of concentration based on your interests and career objectives. Meet with academic advisors to ensure you're on the right track and taking required courses.
3. Extracurricular Participation (Year 1 - Year 3): Participate in leadership roles or projects that align with your career goals. Participate in community service or volunteer activities to broaden your experiences. Join clubs, organizations, or societies related to your academic interests.
4. Medical training and Work Experience (Year 2 - Year 4): Look for internships or part-time work in your subject of study to get experience. Seek out research possibilities or collaborative initiatives with professors or research institutions.
5. Graduate School and Scholarship Preparation (Year 3 - Year 4): Research potential graduate schools or professional programs that align with your goals. Prepare for standardized tests (e.g., GPAT) if required for your desired programs. Look for scholarships, fellowships, or financial aid options to support your studies.
6. Final Year Project or Thesis (Year 4 - Year 5): Work on a significant research project or thesis related to your major or area of interest. Collaborate with professors and mentors for guidance and feedback. Present your project or thesis at conferences or symposiums if possible.
7. Graduation and Post-Graduation Plans (Year 5): Prepare for graduation and satisfy all necessary requirements for your degree. Celebrate your achievements and reflect on your academic journey. Decide on your next steps, whether it's entering the workforce, pursuing further education, or other career pathways. Remember that this is a general plan, and you may need to adjust it based on your individual circumstances and academic requirements. Stay flexible and open to opportunities that may come your way during these five years. Regularly review and update your academic plan to ensure you're making progress toward your goals.
